PROJECT DEBRIEF

01

A photograph of the Chicago skyline, featuring several prominent skyscrapers like the Willis Tower. In the foreground, the Bixby Creek Bridge is visible, with its large steel arches partially open, spanning a body of water. The sky is overcast with grey clouds. The image is partially covered by a semi-transparent brown rectangle on the right side, which contains the title and main text.

OBJECTIVE AND MOTIVATION

Using Zillow's extensive range of data on home values throughout the United States, and many requirements for choosing locations, we will use time series analysis to assist in predicting the most prime investment areas for our new investment partners.
